'Extreme Penalty' Pledged in Mexico for Guilty Ones; Case in Court Today

Coroner's Jury Names Pair; American Citizenship Pleaded by Two

SAN DIEGO, Feb. 12.-With swift justice impending tonight for the defilers of the Peteet family onor, Luis Amador and Francisco nsales, two of the seven men low held in the military quartel in Tia Juana in connection with the abduction, drugging and assaulting of Clyde and Audrey Petect, set up claims to American cliisenship.

Their appeal was made to American customs officials at the border. Both men declared they had been born in California. It is senerally understood the appeal was made at the imminent prospect of "summary justice" at the hands of Mexican officials.

Amador, proprietor of the Oakland bar, was named by a Coroner's jury here today as one of the attackers of the girls.

All day today Mayor Palacio of Tia Juana was engaged in taking depositions in the case. Some time tomarrow the seven men held will face these depositions in the Federal courts at Tia Juana.

# **GENATE PASSES TAX BILL** PROVIDING GIGANTIC CUT

Measure With \$456,000,000 Slash Next Will Go to Conference; White House Optimistic

WASHINGTON, Feb. 12.—The Senate late tonight passed the tax-reduction bill, providing a saving of \$456,000,000 in taxes this year to Federal taxpayers and sent it to conference for adjustment of differences with the House. The vote was 58 to 9. Passage of the bill, which came suddenly and somewhat as a surprise even to Senate leaders, is expected to assure benefits of the proposed tax cut in the payment of first income-tax installments, March 15.

The administration has declared the extent of reduction provided by the bill excessive, but confidence was expressed at the White House today that the measure as finally drafted by the conference committee will lower the total cuts to within limits acceptable to President Coolidge.

Not more than a week is expected to be taken by the conference in reaching a compromise, after which the Benate and House must railify the agreement before the bill is sent to the White House for the signature of the President.

Coroner's Jury Names Two in Bestial Attack

Full Story Comes to Light at San Diego Hearing

(Continued from First Page)

Petest, owned a pop corn stand mear the San Diego High School, testified that the Petest family was refined and cultured and of good character. Several witnesses testified similarly.

That other American women have been attacked in Tia Juana came out in testimony by Fred A. Markley, deputy collector of customs, tia Juana line. He said charges had been made to him that Mexican police officers suppecedly looking after the safety of visitors had themselves taken women when intoxicated to hotels and outraged them. Capt. J. M. Adamson, detective, said he had an affidavit from a woman who said she had been attacked in Tia Juana. Admson came here to Inan amdavit from a woman who said she had been attacked in Tia Juana. Admson came here to investigate the fatal beating of T. M. N. George of Atlanta, Ga., in the Merican town several months ago. Word pictures of the widest range of human emotions—one the vision of plainitive home love and the other a flash into the depths of bestiality—were painted into the records of the Coroner's jury. For the first time, a feeling of understanding developed regarding the purpose of the Peteet family's visit to the unwholesome dives of the border "playground" and with it came a new wave of revulsion that such things can exist.

The other side of the story, grown widespread in the question: "Why did they go there?" was answered.

population of Nenana on foot or behind dogs and on horses. The children of the town had the prized privilege of riding perched atop the laden sleds, which easily made a pace which strained the energies of the dogs and horses following behind.

It was a gala day for Nenana. The schools closed and husiness was suspended, Aviator Bornett of Fairbanks flew over to Nenana for the day and circled above the caravan for five or six miles as the fron horses woved steadily northward toward Minto. The weather was mild, with a temperature just at zero.

Mayor O'Connor of Nenana made the farewell speech on behalf of the municipality, and mounted a small American flag on the cabin of each machine. Malcolm Smith commander of the caravan, and fameus Alaskan trail blazer, replied in suitable terms. The ceremonies the town fire whistie blew 160 staccate blasts and the expedition started on its unprecedented 1606-mile overland journey.

was his answer when questioned about the statement. "When the eccasion arises for action the situation will be met."
When asked whether the statement meant that the Arisona National Guard would be called out to enforce his views regarding Arisona's rights in the river, Gov. Hunt again asserted he had nothing more to say.
The statement which was read in the Genate by Senator Ashurst has caused widespread comment. In protesting against California plans for developing the Colorado River, Gov. Hunt said, "It will never be with Arisona's legal consent, and if I am in a position to have anything to say in the matter—which I hope I may be—it will be over Arizona's physical protests."

Representative Swing Republican, California, co-author of the measure, announced he probably will require several days to complete presentation of information that those indorsing the proposal desire the committee to have. At this time the committee also will consider recommendations made this week by Georetary Work regarding the all-American canal proposal.

Barrew, Alaska, with the fuel supply for Capt, Wilkins's polar enterprise.

This first practical test of motor transport in Alaska is believed by many Alaskans to mark a revolution in Arctic communication. The snow motors are powerful tracters mounted on revolving drums, which worm their way over the snow and ice at a pace beyond the wildest imaginings of the sold trail blazers of dog sied and snowshoe days. There have been many skeptics among the sourdoughs, who have prophesied failure and disaster for the newfangled iron malamutes, their increduity first mice. The subject of the public attitude toward locomotives and automobiles in the early days of those inventions. But the start of the motor caravan yesterday was auspicious, and most of those who came to scoff became converts to the new miracle of transportation. Each of the two motors started off smoothly on the glare ice of the Nenana River, hauling behind it five sleds laden with eight tons of gasoline and oil. The drivers and mechanics rode comfertably in the cabins of the tractors, instead of plewing through the diffits as do the drivers of the dog teams. The caravan moved serenely through Nenana and up the northward trail, followed by the entire population of Nenana on foot or behind dogs and on horses. The children of the town had the prised privilege of riding perched atop the laden sleds, which easily

This area which is outside the national forests will be protected by a force of twenty-one State forest rangers who will be in charge of 560 volunteer fire wardens. Covernment airplanes operating from Mather Field, Sacramento, will cooperate in occuting fires in the forests of the north.

In addition to State funds the Forestry Department has funds available through co-operative fire protection agreements with the Federal government, counties, municipalities, corporations and private owners of lands. Pratt's report shows that 687 forest, brush and grass fires, which occured between May I and October 31, last year, caused damage totaling \$168,-\$18.35. These fires were in territory outside the Federal forest reserves. The losses were as follows: Timber \$21,686.86; graning lands, \$102,417.35, permanent improvements, \$34,708.50.

#### LEAGUE COUNCIL SEATS AT ISSUE

Brazil Seeks Right America's Place

Spain Presents Demands of Neutral States

Session to Admit Germany Called for March 8

IBT CABLE AND ASSOCIATED PRESS) GENEVA, Feb. 12.—There came to Geneva today two new political considered of great riance to the future of the gue of Nations, the reconstrucof which appears to be in-

tion of which appears to be inevitable.

First was the demand of Spain
te have the voice of the nations
that remained neutral in the World
War permanently heard in the deliberations of the Lesgue Council.
Second was the insistence of Brasil that until the time when the
United States may decide to claim
the permanent place that is waiting for her in the Council some
country of the American continents should definitely occupy it.
Afranic Melio Franco, the Brazilian
representative in the Council, told
the Associated Press tonight that
his country will be proud to fill
America's place and that Brazilia
should be considered the logical
candidate to held such a position.
It is the entrance of Germany
into the League of Nations which
has brought on these and is bound
to bring other developments in
forming the League's structure.
They became known in the lobbies
before and after the brief special
session of the Council, which was
summoned to arrange the preliminaries for Germany's admission
to the League and which fixed
March 8 for the convening of an
extraordinary assembly for the
formal admission of Germany.

GERMANY TO TAKE PLACE

GERMANY TO TAKE PLACE

GERMANY TO TAKE PLACE

As the date selected is that for
the opening of the regular March
seasion of the Council, this means
that Germany during that seasion
will take her place on a footing
of complete equality with her former enemies around the Council
board as a perma-ent member.

Those who have had hopes to
confine the election of permanent
members to Germany alone, met
with failure in today's brief session of the Council. That gathering voted that the extraordinary
Assembly shall consider any proposal made by the March session
of the Council regarding its own
membership. This sets in motion
a vigorous scramble for places.
Spain, Poland and Brazil have
come cut at the open with demands
for permanent seats and others
are likely to advance their candidacies later.

This desire for permanent places.

likely to advance their can-cies later. So permanent piaces its desire for permanent piaces in the council will wish a control will wish a fair. The council will be tween the Allies and many, so at Geneva today was trent an attempt to put neurin the World War on the same I with belligerents. Spain stains that as a great power a nonbelligerent she is end to a permanent seat in the field during the present critipariod of world reconstruction hat all elements may be represed.

Senor Mello Franco said that the covenant of the League itself the United States is given a permanent seat in the Council; that this constition will exist as long as the League exists, and that America has only to ratify the Covenant to be able to walk into the Council chamber and take this seat.

Brazil, as a great American nation, wants to fill that seat temporarily, he said, but there is another mighty reason why Latin-America should have a permanent voice. This, he asserted, is because while Europe, with twenty-six members of the League, will have four permanent seats in the Council when Germany is admitted. Latin Aerica, with nineteen members, has none.

"It is true that we have two non-PLACE AWAITS AMERICA

imbers, has none.
"It is true that we have two non-

manent places, at the hazards of sleepen the plant of the Latin America will be with out any voice whatsoever in the Council. Such will be fatal indeed to the League because it will destroy its international character.

The allocation of new permanent seats must have the unanimous support of the present Council of ten member and must be ratified by a majority of the states represented in the Assembly. Therefore a period of intense canvassing on this matter is to be expected.

ENGLAND HOLDS BALANCE
The attitude of England is keep-liquesting, for England alone everything.

France will insist that the dis-armament preparatory commission meet in a place which will insure the participation of soviet Russia, newspapermen were told today by the French Ambassador, Jean Hen-nessey, prior to the opening of the special session of the Council, (Russia angered over the assassi-nation of the soviet envoy. M. Hennessy said that it will be impossible to expect helpful cooperation from the states bordering upon Russia unless the soviet government is represented. This especially applies to Poland, Rusania, Bulgaria, Finland and Czecho-Slovakia.

Foreign Protestant clergymen, when shown the story, said they relied on statements made by President Calles last November, in which the President said they would not be molested so long as as they limited their religious teachings to their own rationalities. There are, however, many American missionaries officiating in Protestant mission churches attended exclusively by Mexicans.

Will Babe Ruth come back in 1928? Will the old wel-kin ring once more to the lusty wallops of his mighty mace, or will the announcement "so-and-so batting for Ruth" become more and more a compon occurrence at American League parks until the Big Bam becomes a thing of the past and is relegated to the scrap heap?

This year is undoubtedly a most critical one for George Herman Ruth. Few people come back once, and the number of pretty greeting cards that Ban Johnson sent to Judge Landis last Christmas. BY WESTBROOK PEGLER

NEW TORK, Feb. 12.—There is a superstition among the lower classes that any critter that is tailoyed all over in some fuzzy material, wears a leg at each corner, a noodle forward and a waggler aft and confines its remarks to "woof" and "bow" is a dog. If one may become slightly personal, this correspondent will state he shared this superstition himself and applied it to a genindividual which resides in his meals at all the better back stoops of the neighborhood. This critter has been known to eat soft coal and to use old inner tubes, red ones preferred, for chewing gum, which seemed a bit unconventional in a dog. But, nevertheless, this correspondent thought he had a dog.

Today this correspondent thought he had a dog.

But I doubt if this predommance of the unlucky number
bothers Babe Ruth one bit.
The happy-go-lucky bad boy
of baseball has much in his
favor, not the least of which
is his hage frame, superhuman
constitution, and undying love
of the game.

And he certainly has made
progress as far as his initial
work toward his comeback
goes. Rigorous daily training
under the watchful eye of
"Professor" Artie McGovern,
veteran physical instructor,
have done much to reduce the
circumference of Babe's equator and add speed to hand
and foot and keenness to his
eye.

Ruth's decision not to go to
Hot Springs for his annual attack of fin was, of course, a
wise one. And he has proved
a faithful pupil to "Professor"
McGovera, losing many pounds
in hours of handball, boxing,
tossing the medicine ball, and
in drinking pails and pails of
hot water. The wise "Professor" has figured out that bis

his last ten years in baseball
—three pounds a day for about
180 days a year. (But I know
some wrestlers who lose nearly
that much in one year.)

Let's hope that the picturesque—and statuesque—figure
of the Bambino will loom on
the baseball horizon for many
years more. That his pose

SALT LAKE CITY, Feb. 12-The first steps in the organization of the Class C baseball league to of the Class C baseball league to operate in the intermountain territory as a subsidiary to the Pacific Coast circuit were taken here tonight when delegates from the cities of Salt Lake, Ogdes, Logan and Provo. Utah, Idaho Palls, Pocatello, Idaho, met and drew up a tentative constitution and elected temporary officers to get the enterprise started and secure a charter from the national commission.

charter from the national commission.

The embryonic circuit selected
Fred M. Nye, Ogden, as temporary
president and Al Warden, sports
editro of the Ogden Standard Examiner, as secretary-treasurer. The
cities represented at the meeting
will elect their representatives on
the board of directors which will
wind up organization plans at a
meeting to be held in Ogden Thuraday, February 18.

The league plans to play a fourmonth season starting between
May 6 and 16, it was indicated tonight that most of the players
would be secured from Pacific
Coast League training camps. H.
W. Lane, president of the Hollywood cdlub, presided at the meeting tonight and took an active
part in the organization of the
league.

Now that a bona fide professoinal football league is proposed for California we will all sit back and see how it works out. Just what will happen and how it will be taken is largely a matter of conjecture, but for one we can't see any particular reason why it won't make a pretty fair start this year. Pro football will never bother the college variety and those who rush into it with the expectation of becoming suddenly rich will find that they have another think coming to them. But it is an interesting pastime and will prove popular with a certain class of people and there isn't any reason why a well-run league with the right kind of publicity shouldn't bring a nice return on the investment to those who finance it

Apparently he can do anything he sets his mind to, as, for instance, the conquest of the Australian buil whip which he uses as successfully in his "Don Q" picture at the Million Dollar. Pretty nearly anybody else in pictures would have said "Well, I could learn to do that but what's the use?" They're wrong twice. They couldn't learn to use it and Fairhanks had proved that it is very much worth while. Dong is one of the few moving-picture athletes we can really believe capable of doing the stuff in real life that they do in pictures.

The second varsity team at Pomona triumphed over the freshman five yeaterday by a score of 22 to 12. Although Relman Morin played the entire game, or perhaps because he played, Cliff Ritter was only able to, or was able to score eight of the victors' points. Oscore also starred at center. The same was a feature of parent day at the school.

Noted Geologist Estimates Domestic Reserves Will Last Only Eight Years; Figures Vary

BY EARLE E. CROWE
Coming from Mark L. Requa, the warning of an early shortage of oil in the United States deserves careful consideration. This cry is not new in the industry, but Mr. Requa's statement before the Federal Oil Conservation Board, as reported yesterday in the news dis-patches, brings the danger much closer to realisation than any other previous testimony. He testified before the board that oil in the United States is only sufficient to last eight years if consumption does not increase, and if the rate of production is rapid enough to bring

By act of the Legislature 2000 acres near Maydella, Tex., had been given to the Bureau of Forestry for experiments in reforestry for experiments in reforestry for experiments in reforestry for experiments in reforestation and nearly the same use of the Rusk State Hospital, occupying the remodeled buildings of the old Rusk State Penitentiary. When this discovery was first made it was believed that nearly all of the ore land had passed from the jurisdiction of the new-layer for the company of the copper and will be subpect to the board by the last Legislature with authority to lease or sell the ore rights on the land. It will have but 120 acres to sell.

PROTEST OF GERMAN INDUS-

American noiseless typewriters caused a deafening din in the industrialists discovered the Reich's solons were using products "not made in Germany." However, the Deputies did not make the same clamor. They investigated and seeing the stenographers writing rapidly without the usual machinegun effect on the ears, asked the representatives of the German typewriter industry why they did not produce similar machines and compete, instead of complaining.

LONDON, Feb. 12.—Black silk stockings as a mark of distinction are again coming into favor. Since the vogue of flesh-colored stockings, which virtually every girl and woman wears these days, women of taste in society have adopted the black silk stocking. This recall the years around 1778, when all women in England wore white stockings, and it was considered greatly daring or eccentric for anyone to put on black stockings.

# Go To Church Sunday

# You Should Go to Church

By Rev. George A. Warmer, D.D.-Westlake M. E. Church.

The Christian Church follows the example of the Christ. Concerning Him It is often recorded "As His custom was, He went into the synagogue on the Sabbath Day." The Church is the only institution that majors on worship. Worship the response of the heart to the fact of God. God is the greatest fact in the iniverse. To Jesus He was understanding, interest, Father. He may be the same to us. This divine fellowship is richer with human friendship in kindred interest.

The only divine friend and the best of human friends are met at the church.

The sudden and somewhat mysterious post ponement of the preparatory conference, which was to have convened today, is but a symptom of the interior disturbances. The Washington Naval Disarmament Conference was the most successful of its kind that has been held since the World War. Much of this success was due to prompt and definite action, also to the fact that as soon as the disarmament proposals were made they were discussed and acted

There was no preliminary conference like that which is to precede the general world conference; and the wisdom of cut world conference; and the wisdom of cut-ting out the preliminaries is now appar-ent. Discussion of what should be dis-cussed at the preliminary caused France to ask for postponement. Politics is interof bringing the countries interested closer together, it will leave them farther apart.

Too much conversation in unofficial chan nels is deadly to successful international negotiations. Peoples become excited by misleading reports, and limitations are put upon the national delegations that tend to make compromise impossible. Already a kind of three-cornered dispute, affecting France, Germany and Italy, is waging There is no agreement over the scope of activity of the preliminary conference. The agenda is broad enough to cover almost any question of international dispute re-lating to arms and armaments. In fact, it seems to be too broad, for it is apparent cussed at the preliminary in which no decisions can be rendered.

The resemblance between Lincoln and Coolidge is marked in certain facial characteristics as well as in their handwriting. The massiveness of their heads, the large back head, the lines of the face, all are expressive of this similarity. The chin and length of the jaws from the point below the ears to where they make an angle forward to the chin indicates strength of will and purpose. Their long, strong upper lips show firmness and stability.

The letters of both these men are well formed, rather extended and tend to decrease in heightan indication of economy in the make-up of both.

Ruddy of Help in and economical in his mode of and ecohomical in his mode of living. Coolidge shows a great example to the American people by his modesty and economy in living. His handwriting shows the man in his style, for the style belongs to him. The carving and inclination of the letters show the quality of consideration—the high order of his mental temperament. There is great elevation and dignity without arrogance. The written characters are hard, simple in nature—an expression of sincerity. Delicacy, energy, earnestness, prudence, power: capacity to gather facts and to arrange them to the best advantage—to get the highest and best use of facts; these are also indicated. He knows the "why and the wherefore" and it gives him brilliancy of intelligence, accuracy of thinking and acting and the power of combining all of his experiments in an effective way to secure decided success. His steadfastness, determination and firmness of purpose are evident. The letters indicate that he carries his intelligence with modesty, but expresses his thought than ornate or fluent. Clear-headed, discriminative, watchful, obstinate—he recognizes no immunity. There is a resemblance between Lincoln and Coolidge, not only in the shape and size of their letters, but in the character as well. There is a great congeniality in the silent sufferings and decisions, clarity of mind, unawerving purposes, religion, conscience, simplicity, unhestancy and in the great love for country and fighting for right. A sparsely-attended meeting of union plasterers was held and voted to strike only on open-shop jobs. It is not likely that this order will be followed immediately, because only about fifty of the craft were represented by the vote.

The more radical of the "organizers" declare that the long-threatened general strike in all trades will take place here May 1. At a meeting of the painters to which representatives of other crafts were invited, the general strike proposal was favored by the bricklayers, garment workers, machinists, molders, painters, plasterers, marble workers and tilesetters. The remaining crafts were opposed or favored only a "demonstration strike." Among these were the carpenters, the strongest unit of the Building Trades Council. However, no craft was represented by more than a few members at this meeting.

Another general meeting of the building crafts is to be held shortly, at which it is said plans will be formulated for a general walkout in support of those trades which by that time are already on strike.

The truth is that the body usually has plenty of iron, but the Iron does not act up to its function as an agency in oxidation of the tissues." This is the theory upon which "Ionaco" is based. The device is placed about your body, as you sit comfortably in your chair, reading or conversing. You are placed within the electro-magnetic field which is created by the "Ionaco." Your iron is being magnetized, leading to normal oxidation of the cells. The effect is indeed marvelous. The dumb have been made to talk, the deaf to hear, the lame to walk. Goltres and tumors have been dissolved and many relieved of so-called incurable ills, like arthritis and including even cancer and diabetes. Favorite Artists Heard in Varied Offerings

Two Prominent Sponsors on Air Tonight

BY PAUL SHEEDY The life and works of Abraham Lincoln were portrayed in a special program dedicated to this great patriot over KHJ's aerial last night, the Western Auto Supply Company presenting an excellent program by leading artists through the courtesy of the Western Air Patrol, the radio receive distributed through the firm's 135

distributed through the firm's 135 stoges in the West. During the broadcast from 8 until 10 p.m., Horace Porter appeared before the microphone with a splendid brief talk on the Great Emancipator, whose birthday was yesterday throughout the nation.

The accomplished Instrumental Trio, composed of Carolyn LeFevre, violinist; Bernice Neale, 'cellist, and Mona Content, concert pianist, was again present in the station to give the ensemble portion of the evening opening their group of numbers with the beautiful selection, "Ectasy," by Ganne, These three favorite artists of the air also appeared in solos during the musicale.

FAVORITES HEARD

Tom Mitchell, widely known baritone, sang a group of especially fitting solos during the evening, with a new feature in the rendition of a number of harp solos by Enona Hopkins, who recently made her debut over KHJ. The studio also welcomed Louis F, Klein, long a favorite of the tower, and also identified for a lengthy period as the Court Musician to Queen Titania of the radio fairies. He gave a number of his harmonica and auto harp compositions. Burkman Frothers Hawaiian Quartet opened their numbers with a delightful group of Hawaiian melodies.

Appropriation Request for \$75,000 Referred to Mayor and Finance Committee

An appropriation of \$75,000 for expenses of the special election of April 30 was asked yesterday of the City Council by City Clerk Domingues. The request was reerred to the Mayor and Finance Committee for approval.

At first it was thought the elec-tion would cost in the neighbor-hood of \$150,000, but Mr. Domingues worked out a system of con solidating the more than 1000 pre-cincts and reducing the number of

PEAR AT THE PLAYHOUSE

By Grace Kingsley
One of the outstanding dramatic
events of the present theatrical
session is announced by Louis O.
Macloon of the Playhouse, whose

of Evelyn Campbell's well-known magazine story, "Splurge."
Incidentally, it appears that Kathryn Perry, who first attracted attention us "Helen" of the "Married Life of Helen and Warren" series, is being groomed for certain stardom because of her clever work in Frank Borsage's "The First Year."

Starting work s day or so ago, the director has completed his cast, which also includes Zasu Pitts, Arthur Housman, Albert Gran, Belva McKay/ Rodney Hildebrand, and Ross McCutcheon. As usual, Bunny Duil is the assistant director, and Frank Good is at the camera.

With the completion of "Early To Wed," some time in March, it is definitely announced that Frank Borsage will then depart for London, Eng., to make preparations for his production of A. S. M. Hutchinson's "One Increasing Purpose." There is much speculation in Hollywood as to who will win the plums in the way of leads as the director will cast his important roles here.

#### PREPARE TO RULES FOR "IDEA" CONTEST

Prizes aggregating \$2100 are offered by Cecil B. De Fake Westerns and Silly Mille, picture producer, for the letters which best present ideas considered as available for big photoplays. The first

> Mr. De Mille, it will be remembered, sponsored the De Mille-Times Idea Contest of 1922, from which came the idea of "The Ten Commandments."

Read the rules-and write a letter worth \$1000. Here are the rulings governing the Los Angeles Times-

De Mille Photoplay Letter Contest:

(1.) Ceell B. De Mille Picture Corporation will award a prize of \$1000 to the person sending in not over TWO HUNDRED (200) words the letter which best presents a theme considered as most suitable for a big motion picture.

(2.) The corporation will award a second prize of \$500; third prize of \$200; fourth prize of \$100 and ten prizes of \$50 each.

third prize of \$200; fourth prize of \$100 and ten prizes of \$50 each.

(3.) Finished stories, plays or synopses of stories or plays will not be accepted. No entry of over two hundred words will be read.

bars of Chivalry

The young girls of America, the contest shows, dream of the romance of court days; the flash of broadsword on shield; the color-ful pageantry of gay pennants and armed knights with their ladies' colors on their visors.

Across the minds of the boys flash the vivid apscale of a host of mounted solliers, Indians and storm-buffeted ships of romance striving desperately to make a safe haven.

"The contest proves conclusively now." Mr. De Mille stated, "that it is folly to say that 'romance is dead.' If we accept the replies as triply representative of public opinion it is very much alive.

"Romance was once, believed the dream of fleeging boys and girls, but se many grown-ups have come to the fore in its defense that we producers must give it serious attention.

"The present trend of the child is a very healthy sign of the influence the home and education is having upon them. Their voices will undoubtedly be heard and given attention by producers of pictures from now on.

"Parents should encourage their children to write down their ideas and send them in to the contest desire. The prize have and given attention by producers of pictures from now on.
